(Pre-1952 Oliver)

Product Uses

For tractors, farm equipment, machinery, tools, and many other applications where protection from weathering and rust is a priority. Tractor, Equipment & Industrial Enamel is designed as a metal coating, but may be applied to wood and many other properly prepared surfaces.

Custom Match Colors

Van Sickle offers an extensive line of antique and difficult to find tractor and equipment enamels. Visit our website for a complete list.

New Holland Red 461
(Old I.H. Red)

Red Enamel Primer 406

Want a Step Up in Quality?

Performance Ag & Fleet Acrylic Enamel

is our fast dry oil-based acrylic formulation that provides automotive type application and performance qualities including outstanding long-term gloss retention, durability, and fade resistance. Application benefits include a short dry time along with non-lifting properties for easy touch-up and repair.

Colors shown are produced as close as modern printing techniques permit and are only approximate representations of the actual colors.

Additional Products:

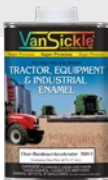

447 Acrylic Lacquer Clear Coat

Provides additional protection and fade resistance that can be applied over properly cured and lightly sanded enamel finishes.

7019 Clear Hardener/Catalyst

Provides increased durability, chemical resistance, and improves long-term gloss retention.

7028 Clear Hardener/Accelerator

A value-added alternative to our hardener/catalyst. It reduces dry time and improves enamel hardness.

R-05 Enamel Reducer

A solvent blend enamel reducer designed for use with the Tractor & Equipment Enamel finishes and primers.

169 Sandable Primer

Formulated to provide outstanding build for fast filling without shrinkage. Its fast dry enables sanding and top-coating within one hour of application.

167 Self-Etching Primer

Our single stage gray self-etching primer is great for metal, fiberglass, aluminum, galvanized wood, and most plastics.

Discover the VanSickle Difference

Formulating and delivering top-quality coatings for over 100 years!

Manufactured from Top Quality Soybean/Alkyd Resin

- Exceptionally durable
- Superior adhesion to unprimed metal

Contains Rust Arrestor

- Contains and controls rust efficiently

Superior Coverage

- High solids content requires fewer coats for maximum protection

Designed to Last

- Excellent gloss retention
- Top-quality color retention compared to similar product lines

Most Complete Color Offering in the Industry

- Colors available for any tractor, from antique to current models

Custom-Packaged Aerosols

- Ensures uniform touch-up with easy application

Multi-Purpose Coating for All Your Maintenance Needs

- Tools, trucks, stock cars, trailers, tanks, and other wood or metal surfaces

Two Hardener Options Available to Enhance Gloss Retention, Dry Time, and Hardness

Remember...

Always **READ YOUR LABEL** to learn about proper surface preparation, thinning, application instructions, and more!
